

Access Governance

as a Docker Container

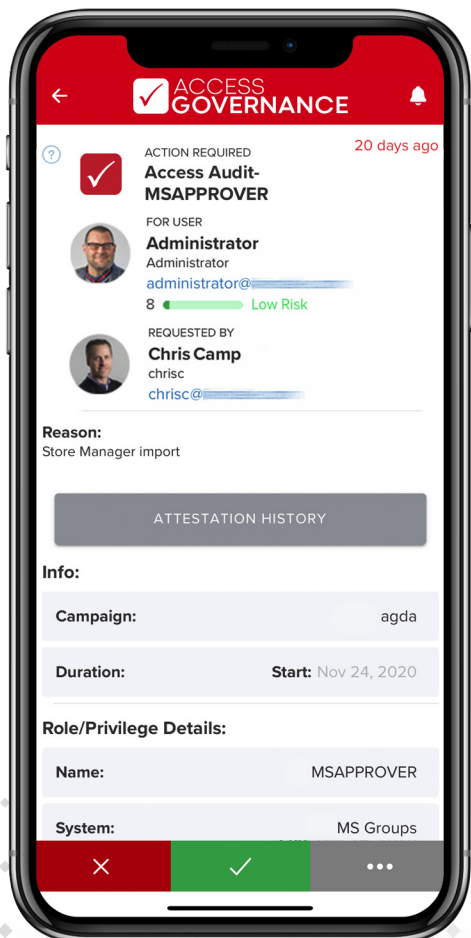

ACCESS GOVERNANCE

Avatier Lifecycle Docker container cloud-Independent solution brings employees, partners and customers applications, cloud services, assets and even e-signature forms together to manage them as one system. More importantly, our unified digital dashboard enables C-level executives to deliver business growth and increased profits.

Avatier Identity Anywhere Access Governance

Introducing Identity Anywhere Access Governance, the world's first based on Docker containers making it the most portable, scalable and secure solution on the market. Docker container technology allows Identity Anywhere Access Governance to run anywhere: on any cloud, on premise or a private cloud instance hosted by Avatier.

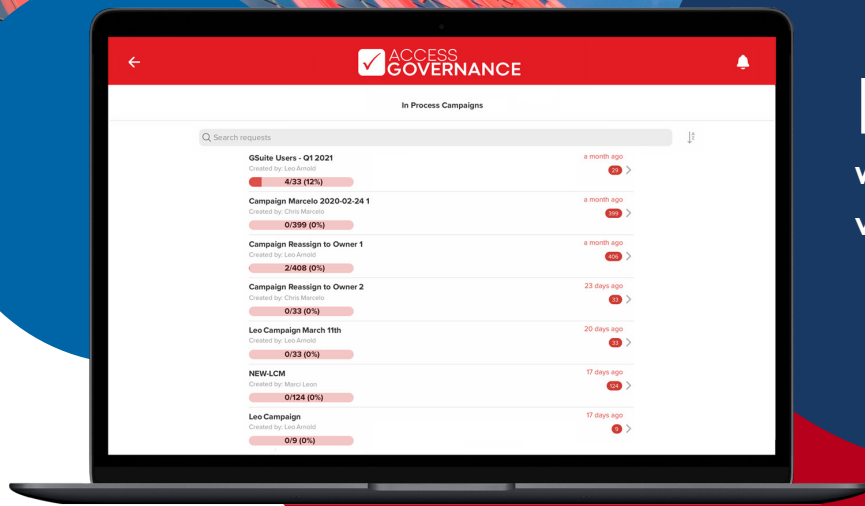

Embrace Your Audit With Confidence Today!

Conduct access certifications IT audit from any device. See your list of audits due along with unverified identity and access governance items. Practice security and compliance management with the touch of your finger. Approve and revoke access. Allow exceptions and more with the best GRC software solution on the market.

Always Stay Connected With Mobile On-Demand

Our new mobile app platform creates a collaborative, self-service approach to enterprise access without compromising security.

Avatier's mobile experience is designed for the modern workforce, giving employees, customers, contractors, and vendors a single mobile app that enables self-service business agility for time-sensitive security requests.

Enable
workforce access
verification from any device

Certification Campaigns

Create Certification Campaigns Easily

Verifying workforce granular access has never been this easy. Ensure access governance is continuously being met by empowering managers to approve, deny, allow an exception, or re-assign certifications to a co-worker.

Streamline IT Audit, Security Reviews, And Compliance

Meet or exceed information security regulations and standards for **FISMA**, **FIPS 200**, **NIST**, **HIPAA**, **NERC** and **SOX** compliance. Automate security reviews to expose out of compliance access to systems, applications and cloud services.

Get More Done With The Apps You Love

Access Governance that runs on your favorite apps and platforms like **Teams**, **Outlook**, **Chrome**, **iOS**, **Android**, **ServiceNow**, **Slack** and many more. Discover a breakthrough, seamless self-service collaborative it experience, unified workflow and automation for the entire enterprise using Avatier.

Cloud-only identity is not enough:

- Legacy on-premise systems
- Governed by tight compliance
- Lack of trust in cloud security

The hybrid identity crisis:

- Legacy maintenance and upgrades
- Separate cloud/on-premise models
- Labor intensive operations management
- Lacks CPU memory auto-scaling
- Manual updates
- Requires load balancer management

ACCESS GOVERNANCE
