Avatier is the Identity Management company of the future with innovative solutions for today. Avatier develops a "state of the art" identity management platform enabling organizations to scale faster, innovate quicker, conquer and embrace change, and dominate competition worldwide. Our Identity solutions are delivered using the latest Docker container technology providing the maximum flexibility, scale, and security to our customers. Our identity management and access governance solutions make the world's largest organizations more secure and productive in the shortest time at the lowest costs. Avatier brings all of your back-office business applications and employee assets together and manages them as one.
